

price sheet E5: **ESD-safe chair 'Vera'**

The **VERA X1** is an ESD-safe laboratory chair, meeting ESD requirements of IEC 61340-5-1 std. The seat and extra high backrest are upholstered with durable, grey colored ESD dissipative fabric.

**MAIN FEATURES**

- 3 heights available (standard, medium and extended height), fully adjustable.
- High quality gas lift, European made, which ensures continued service in time under heavy duty usage.
- Extra soft high-density foam lining of seat and backrest.
- Flame- and burn-resistant ESD dissipative fabric.
- The backrest shell is made of conductive plastic for total ESD protection.
- The base is made in polished ESD aluminium anti-scratch.
- Adjustable or fixed armrests, as well as a chrome footrest, are seperately available.
- Very durable PU dissipative caster wheels with ESD (lightning) symbol.
- Linear seat slide system available upon request.
