

price sheet E6: *temporary solder resists*

Temporary solder resists are used for covering those parts of the printed circuit board which are not allowed to make contact with the liquid tin solder during the wave soldering process. The temporary solder masks as described below are suited for the use in modern high-temperature wave soldering machines. After soldering, the mask can easily be removed, without leaving glue traces or any other residue on the P.C.board.

Rover Mask: latex-based temporary solder resist

bio-degradable, non-toxic

product code	description	1 - 9	10 - 35	36 *
XF5401-7758	Rover Mask peelable solder resist in 8 ounce applicator bottle (approx. 227g)	12,00	10,20	9,20

* 36 pcs. in a carton
