

price sheet E5: *ESD-safe chair 'Vera'*

*** MADE IN ITALY ***

The **VERA X1** is an ESD-safe laboratory chair, meeting ESD requirements of IEC 61340-5-1 std. The seat and backrest are upholstered with durable, grey colored ESD-dissipative fabric.

MAIN FEATURES

- 3 heights available (standard, medium and extended height), fully adjustable.
- High quality gas lift ensures continued service in time under heavy duty usage.
- Extra soft high-density foam lining of seat and backrest.
- Flame- and burn-resistant ESD dissipative grey fabric upholstery.
- Standard 40 cm high backrest, with special conductive shell for total ESD protection.
- The base is made in polished ESD aluminum, anti-scratch.
- Adjustable T-shaped armrests, as well as a chrome footrest, are separately available.
- Very durable PU dissipative caster wheels with ESD (lightning) symbol.
- Optional feature: linear seat slide system with synchroized tilting of seat and backrest.
